AURA
AESTHETICS

The Science of Confidence

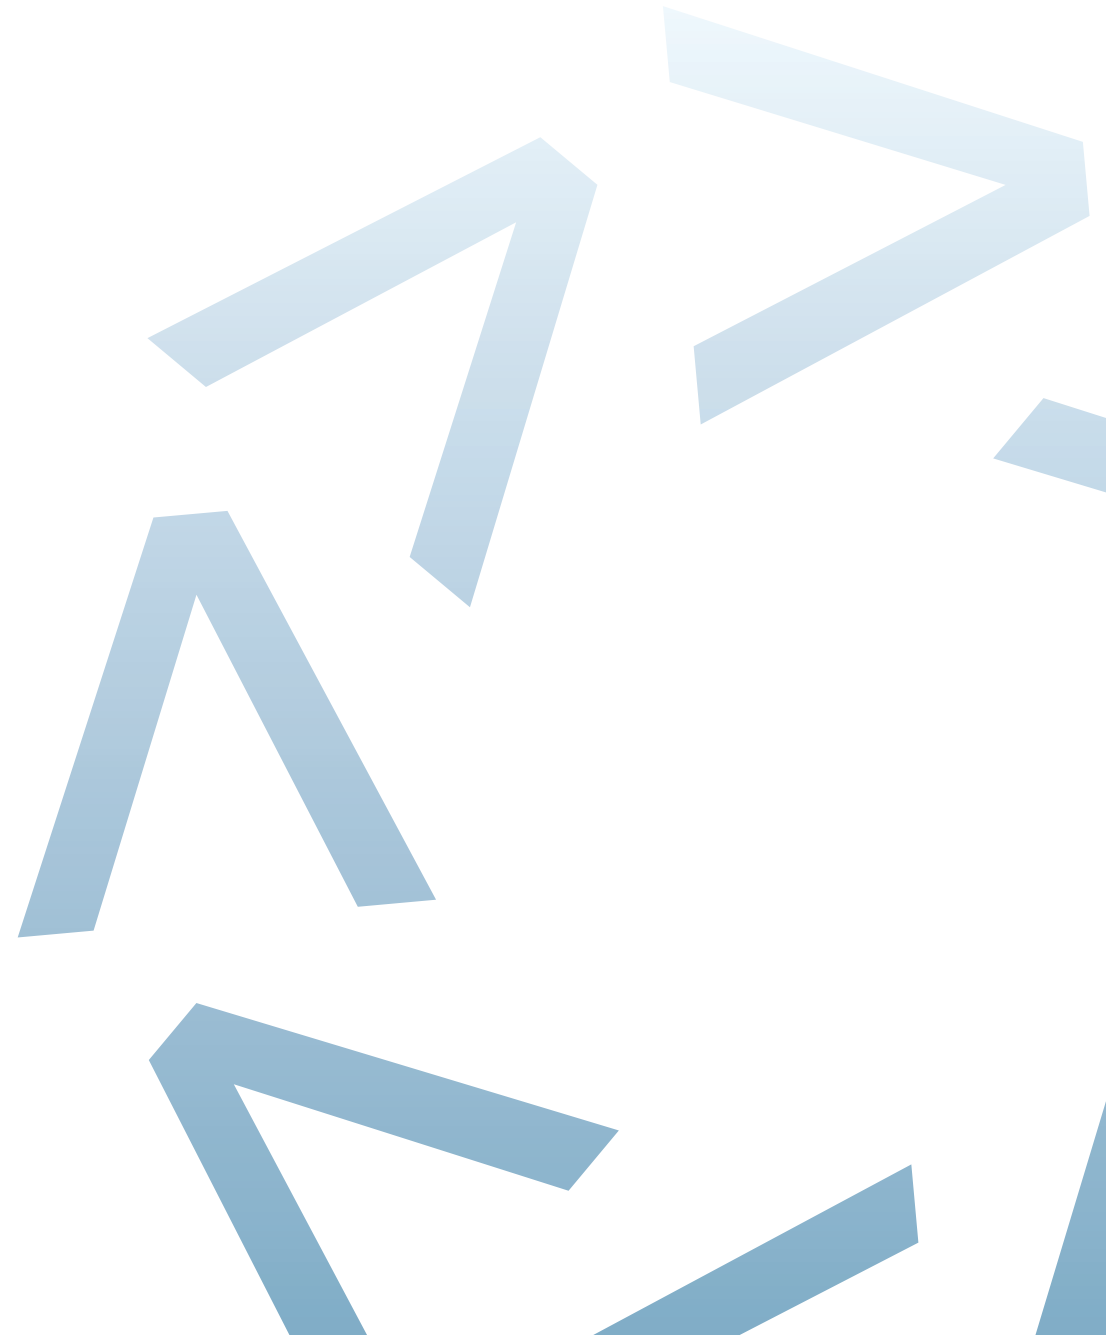

Our core focus is the advancement of biotechnology-driven innovation, with particular emphasis on exosome-based dermal therapeutics and scientifically formulated nutraceuticals designed to modulate cellular function, support longevity pathways, and optimize systemic well-being.

Through innovative research, clinical knowledge, and next-generation formulations, we are transforming nutrition, regenerative medicine, and skin health with a solid scientific basis.

Through tested, game-changing breakthroughs, our Aura family of products empowers people to attain radiant skin, robust health, and holistic well-being, setting new industry standards in skin rejuvenation, hair restoration, and advanced wellness solutions.

- I. Who we are
- II. What are exosomes?
- III. Product Range

Aurafamily is driven

Aesthetic medicine deserves the same rigorous standards as pharmaceutical science.

Every formulation undergoes meticulous development under controlled manufacturing processes, utilizing superior quality raw materials that adhere to clinical standards. Aurafamily is designed for physicians who hold their patients to the highest standards.

Aurafamily proudly partners with CSN Pharma, a leading company headquartered in the picturesque British Columbia, Canada. CSN Pharma specializes in Research & Development and Contract Manufacturing.

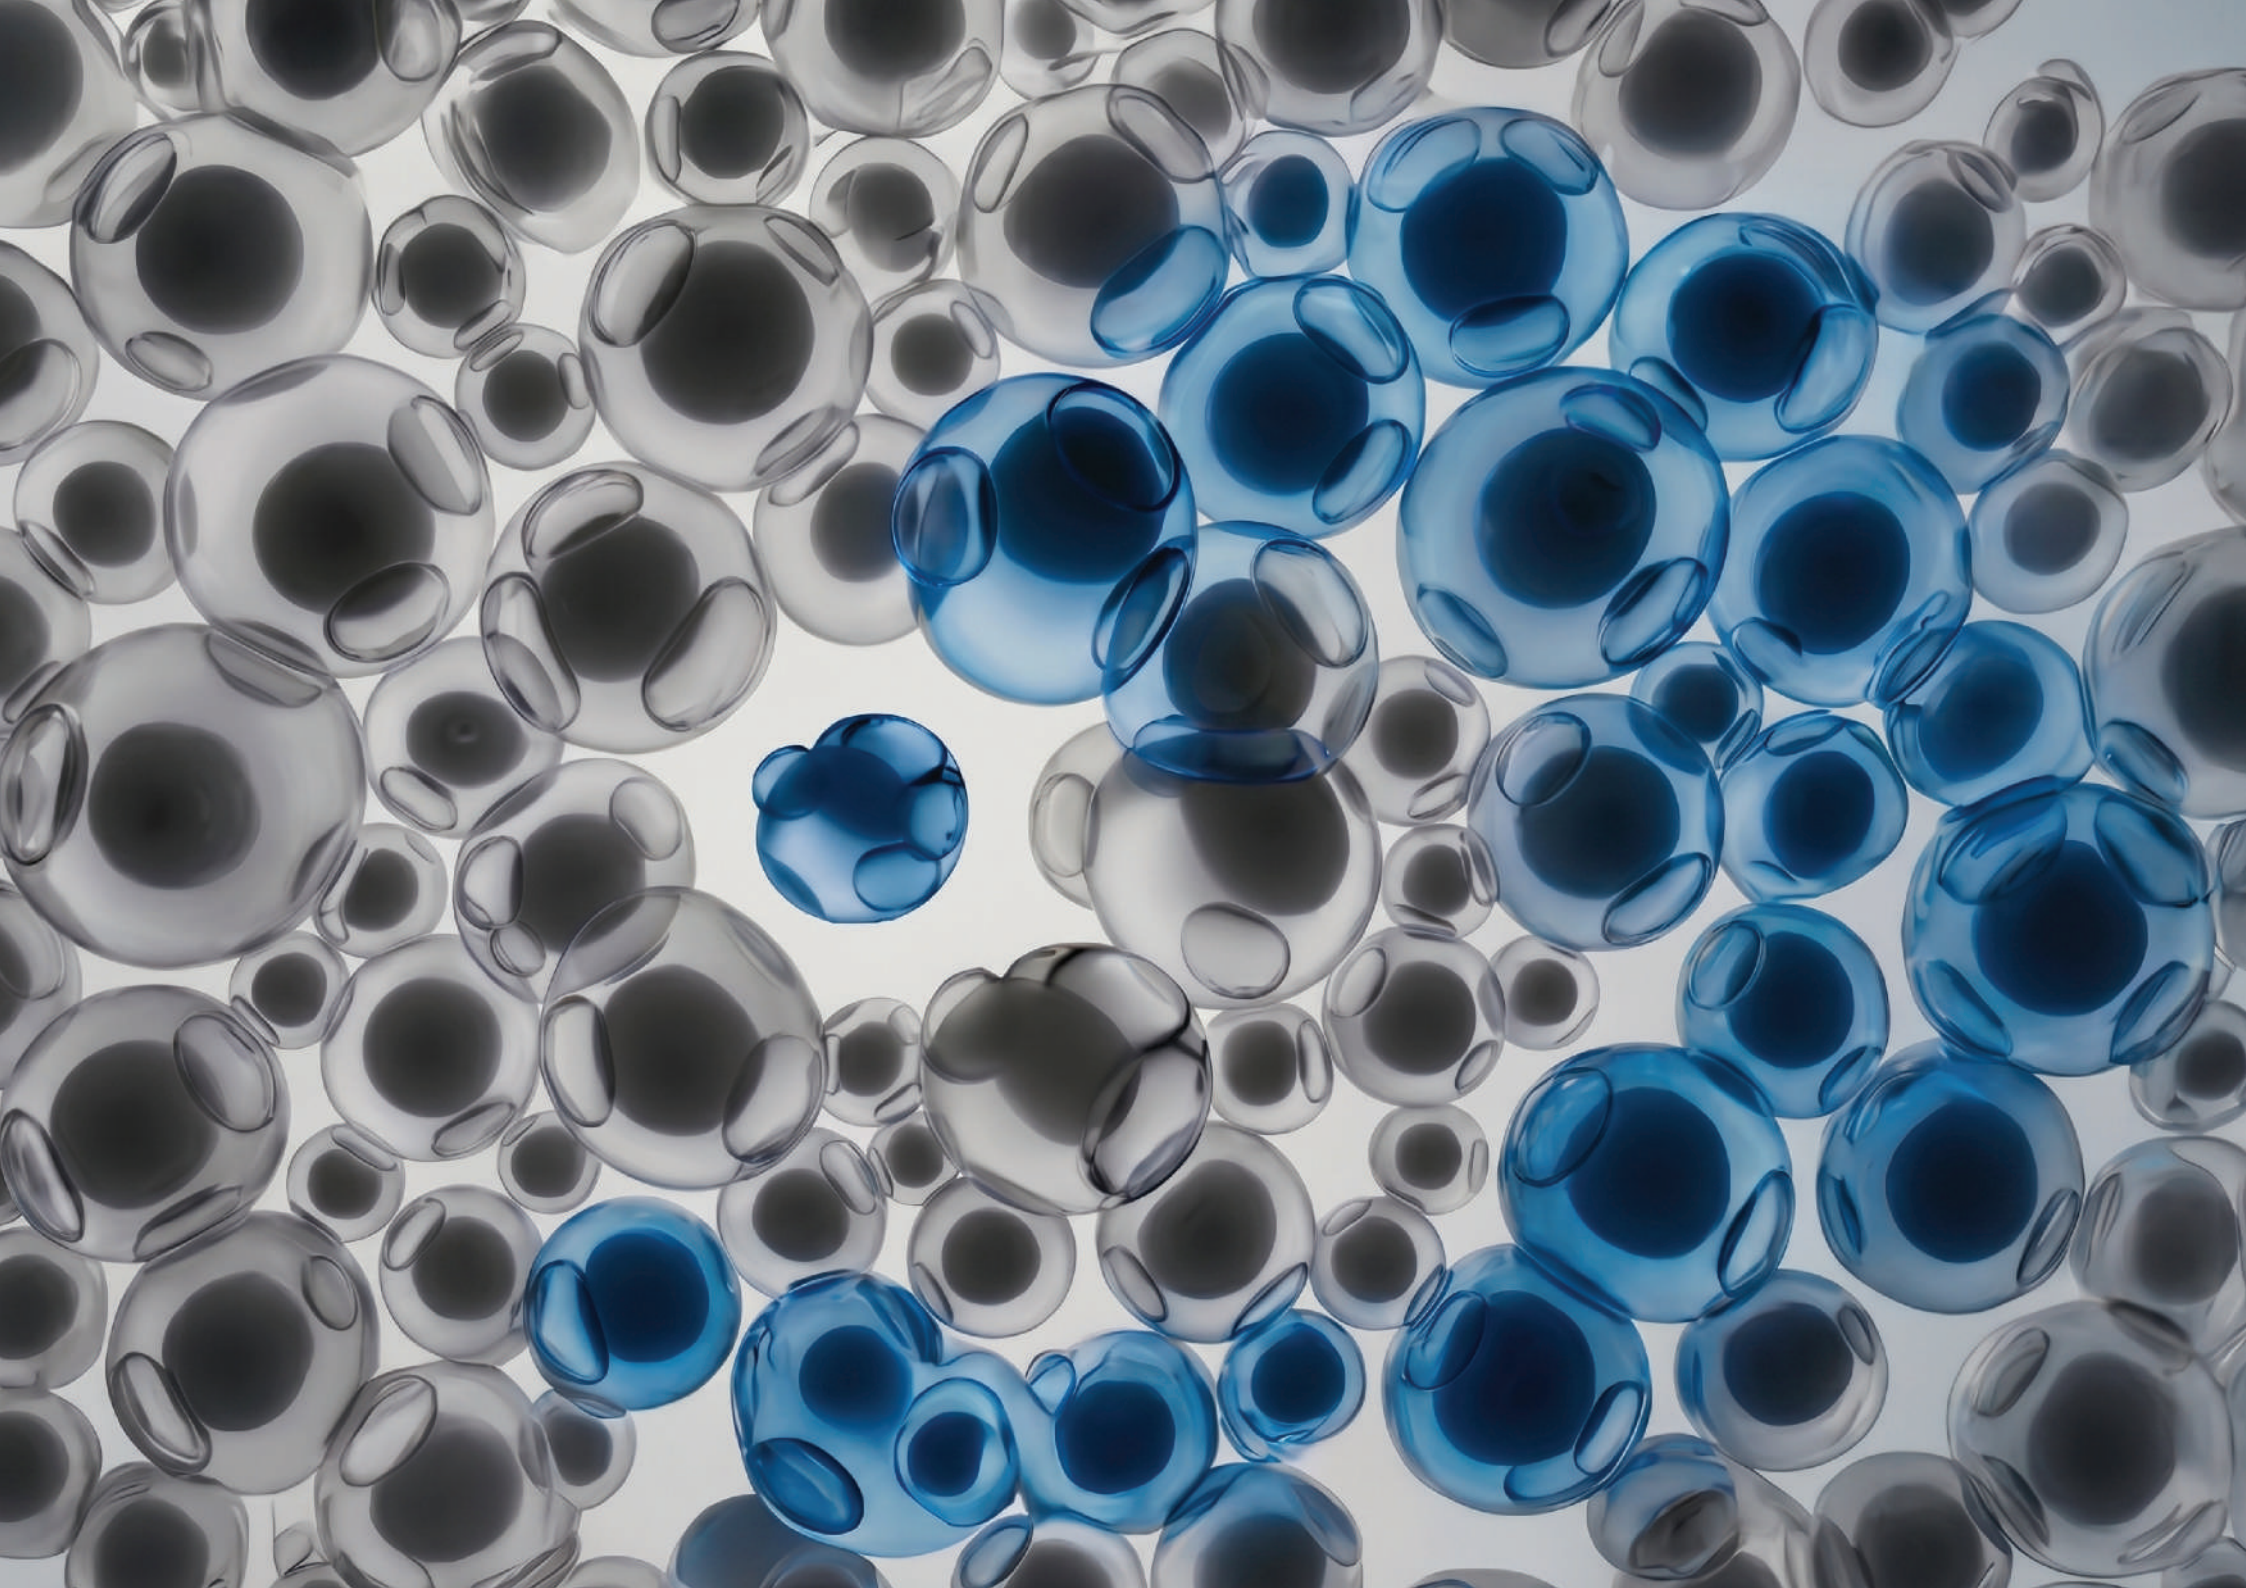

As a GMP Certified Facility, CSN Pharma diligently adheres to the stringent standards set by Health Canada, CFIA, and the FDA. This commitment ensures that all products meet the highest levels of quality and effectiveness.

What are Exosomes?

Exosomes are nano-sized extracellular vesicles that act as biological messengers, facilitating cell-to-cell communication and tissue regeneration. Naturally secreted by stem cells, they deliver bioactive molecules such as proteins, growth factors, lipids, and mRNAs, all of which play essential roles in cell repair, collagen production, and immune modulation. Their ability to transport biomolecules directly to target cells makes them a powerful tool in regenerative medicine.

At CSN Pharma, we specialize in advanced exosome-based therapies designed for skin rejuvenation, hair restoration, and skin barrier repair. Our exosomes are ethically sourced and processed under GMP-certified standards to ensure purity, potency, and clinical-grade quality.

Product Lines Overview

Aurasome™ is a comprehensive line of exosome-based protocol kits developed specifically for professional skin and scalp care.

Each protocol is designed to address a specific skin or scalp concern, including hydration, radiance, recovery appearance, firmness, antioxidant regeneration, and scalp vitality appearance.

EXOLIFT

Skin Firmness & Elasticity

EXOVITAL

Skin Hydration & Regeneration

EXODERM

Restoring Skin Barrier & Regeneration

EXOSCALP KIT

Improving Scalp Health

EXOGIN

Skin Revitalization & Rejuvenation

EXOGLOW

Enhancing Skin Radiance & Luminosity

Scientific Innovation in Skin Firmness & Elasticity

Aurasome™ EXOLIFT is an umbilical cord-based exosome solution, offering a unique regenerative treatment for deep wrinkle correction, lifting, and skin rejuvenation. This advanced non-surgical facelift alternative is the perfect solution for aesthetic professionals and dermatologists seeking a powerful anti-aging treatment with long-lasting results.

Key Benefits

- Supports significant skin firmness and elasticity
- Improves the appearance of fine lines and early aging signs
- Enhances hydration and moisture balance
- Supports smoother, denser-looking, and more refined skin texture
- Improves the appearance of tired, dull, and stressed skin
- Supports regenerative skin quality

AURASOME™ EXOLIFT

Active Ingredients

- Umbilical Cord, Derived EV Complex
- Polynucleotide Complex / Sodium DNA
- Multi-MW Hyaluronic Acid, Biomimetic Peptides
- Ectoin, Niacinamide, Tranexamic Acid, Panthenol, Betaine
- Allantoin, Trehalose, Mannitol, Methionine

Functions

- Stimulates collagen and elastin production, improving firmness and elasticity
- Boosts circulation and enhances skin vitality and antioxidant protection
- Speeds up skin healing, reduces inflammation
- Provides deep hydration and maintains skin moisture balance
- Provides skin lifting & tightening, reduces sagging

Clinical Protocol

- Recommended Application Depth: 1.5–2.5 mm
- Recommended Course: 3-4 Sessions
- Interval: Every 2-3 weeks during the initial phase
- Maintenance: Every 2-3 months
- Dosage: 2–5 mL Per session (Full Face, Neck & Décolleté)

5 boxes + 5 syringes

10 Sterile Vials

25 Billion pure exosomes per treatment

Clinically Proven

Dermatologist-Tested

Safe & Effective

Scientific Innovation in Skin Hydration & Regeneration

AURASOME™ EXOVITAL is a cutting-edge exosome-based solution designed for deep skin regeneration, hydration, and anti-aging benefits. Enriched with human adipose-derived exosomes, growth factors, and peptides, EXOVITAL enhances collagen production, cellular repair, and tissue regeneration, making it an essential treatment for skin rejuvenation and post-procedure recovery.

Key Benefits

- Boosts skin hydration & smoothness
- Enhances healing & reduces inflammation
- Fades dark spots & melasma
- Strengthens skin resilience & moisture balance
- Improves elasticity

AURASOME™ | EXOVITAL

Active Ingredients

- Human Adipose Stromal Cell Conditioned Media
- Milk Exosomes
- Lactobacillus Extracellular Vesicles
- Salmon Testis Exosomes (PDRN-Rich)
- Sodium Hyaluronate
- Niacinamide, Tranexamic Acid, Peptides

Functions

- Stimulates collagen production, improves elasticity, and promotes wound healing
- Supports anti-inflammatory responses, and strengthens the skin barrier
- Balances the skin microbiome, enhances skin immunity, and reduces redness and irritation
- Rich in antioxidants and polynucleotides, helping improve wrinkles and skin texture
- Enhances hydration and skin vitality appearance
- Brightens skin tone, reduces hyperpigmentation and melasma, and improves overall skin clarity

Clinical Protocol

- Recommended Application Depth: 0.5-1.5 mm
- Recommended Course: 3-5 Sessions
- Interval: Every 2 weeks during the initial phase
- Maintenance: Every 2-3 months
- Dosage: 2-4 mL Per session (Full Face, Neck & Décolleté)

5 vials + 5 syringes

10 Sterile Vials

Lyophilized Powder + Active Solution

25 Billion pure exosomes per treatment

Clinically Proven

Scientific Innovation in Restoring Skin Barrier & Regeneration

Aurasome™ EXODERM is an advanced exosome-based solution designed to restore skin barrier function, improve elasticity, and enhance hydration. Infused with multipotent fibroblast cell cultures, plant-derived exosomes, peptides, and antioxidants, EXODERM provides deep skin regeneration, wrinkle reduction, and barrier strengthening. It is ideal for anti-aging treatments, post-laser recovery, and hydration-boosting therapies.

Key Benefits

- Boosts skin hydration and barrier function
- Reduces wrinkles and fine lines
- Enhances collagen and elastin synthesis
- Provides antioxidant protection against skin aging
- Ideal for post-laser and RF micro-needling treatments

AURASOME™ | EXODERM

Active Ingredients

- Human Dermal Fibroblast Cell
- Lactobacillus Extracellular Vesicles
- Salmon Testis Exosomes
- Panax Ginseng Callus Culture Extract
- Ginkgo Biloba, Bamboo Green Tea Extracts
- Centella Asiatica and Aloe Vera Vesicles
- Sodium Hyaluronate
- Nicotinamide Mononucleotide (NMN), Nicotinamide Adenine Dinucleotide (NAD)

Functions

- Stimulates collagen and elastin production for anti-aging
- Supports microbiome balance and skin immunity
- Delivers polynucleotides to help reduce wrinkles
- Boosts circulation & brightens skin tone
- Antioxidant protection & anti-inflammatory properties
- Strengthens skin barrier & prevents moisture loss
- Deep hydration & moisture retention
- Cellular energy & skin vitality

Clinical Protocol

- Recommended Application Depth: 0.5-1.5 mm
- Recommended Course: 4-5 Sessions
- Interval: Every 2 weeks depending on skin condition
- Maintenance: As needed after professional procedures
- Dosage: 2-5 mL Per session (Full Face, Neck & Hand)

5 vials + 5 vials

10 Sterile Vials

Lyophilized Powder + Active Solution

25 Billion pure exosomes per treatment

Scientific Innovation in Improving Scalp Health

Aurasome™ EXOSCALP is an advanced exosome-based solution designed to stimulate hair follicle regeneration, prevent hair loss, and improve scalp health. Enriched with bioactive exosomes, peptides, and growth factors, EXOSCALP enhances scalp hydration, reduces inflammation, and strengthens hair fibers, making it an ideal solution for androgenic alopecia and scalp regeneration.

Key Benefits

- Stimulates hair growth and thickening
- Improves scalp hydration and reduces dandruff
- Helps inhibit DHT-related hair loss (androgenic alopecia)
- Strengthens weakened hair follicles and helps prevent hair shedding
- Ideal for post-hair transplant and mesotherapy treatments

AURASOME™ | EXOSCALP KIT

Active Ingredients

- Milk Exosomes
- Leuconostoc Extracellular Vesicles
- Salmon Testis Exosomes
- Caffeine & Biotin
- Sodium DNA & Peptides

Functions

- Nourishes scalp, reduces inflammation & strengthens hair follicles
- Supports scalp microbiome & prevents hair loss
- Delivers antioxidants & polynucleotides for follicle activation
- Stimulates hair growth & strengthens weak hair strands
- Regenerates the scalp & enhances cellular function

Clinical Protocol

- Recommended Application Depth: 0.8-1.5 mm
- Recommended Course: 3-5 Sessions
- Interval: Every 2 weeks during the initial phase
- Maintenance: Monthly or according to professional assessment
- Dosage: 3-5 mL Per session

5 vials + 5 syringes

10 Sterile Vials

Lyophilized Powder + Active Solution

Scientific Innovation in Skin Revitalization & Rejuvenation

Aurasome™ EXOGEN is a powerful exosome-based solution designed to enhance skin radiance, reduce pigmentation, and improve elasticity. Enriched with antioxidant-rich ginseng-derived vesicles, bioactive peptides, and exosomes, EXOGEN helps revitalize tired, dull skin while preventing oxidative stress and aging. It is an ideal solution for skin brightening, hyperpigmentation correction, and post-inflammatory discoloration.

Key Benefits

- Brightens dull skin & enhances glow
- Soothes inflammation & redness
- Protects the skin against environmental stress
- Deep hydration & antioxidant protection
- Ideal for post-laser, micro needling & sensitive skin recovery

AURASOMETM | EXOGIN

Active Ingredients

- Panax Ginseng Root Extract
- Sodium Hyaluronate
- Trehalose
- Dimethylaminoethanol Tartrate (DMAE)

Functions

- Enhances blood circulation, brightens skin & reduces oxidative stress
- Improves moisture retention & skin elasticity
- Provides deep hydration
- Firms skin & improves elasticity

Clinical Protocol

- Recommended Application Depth: 0.5 - 1 mm
- Recommended Course: 4-6 Sessions
- Interval: Every 2 weeks
- Maintenance: Every 2-3 months
- Dosage: 1.5 mL Per session (Full face, neck, or décolleté)

Scientific Innovation in Enhancing Skin Radiance & Luminosity

AURASOME™ EXOGLLOW is a next-generation plant-based exosome solution designed to enhance skin radiance, boost hydration, and improve overall skin tone. Powered by bioactive peptides, plant-derived exosomes, and essential nutrients, EXOGLLOW delivers deep skin nourishment, antioxidant protection, and long-term skin health benefits. EXOGLLOW is an ideal solution for dull, tired, and dehydrated skin that requires revitalization and protection against environmental stressors.

Key Benefits

- Boosts hydration & maintains moisture balance
- Brightens dull skin & improves overall radiance
- Strengthens skin barrier & protects against environmental stress
- Reduces hyperpigmentation & evens out skin tone
- Provides long-term antioxidant & anti-aging benefits

AURASOME™ | EXOGLOW

Active Ingredients

- Panax Ginseng Callus Culture Extract
- Ginkgo Biloba, Green Tea, Carrot Callus Extracts
- Centella Asiatica, Aloe Vera Vesicles
- Hydrolyzed Hyaluronic Acid / Sodium Hyaluronate
- Glutathione, Ascorbic Acid, Niacinamide
- Copper Tripeptide-1, Palmitoyl Tripeptide-5
- Raspberry Ketone, Tocopheryl Acetate (Vitamin E)
- Nicotinamide Mononucleotide (NMN), Nicotinamide Adenine Dinucleotide (NAD)

Functions

- Boosts circulation & provides powerful antioxidant protection
- Fights oxidative stress & improves skin brightness
- Soothes inflammation, supports wound healing & enhances hydration
- Delivers deep hydration & plumps the skin
- Brightens skin, reduces pigmentation & evens skin tone
- Stimulates cellular repair & fights aging signs
- Provides strong antioxidant effects & protects skin from stressors
- Cellular energy & skin vitality

Clinical Protocol

- Recommended Application Depth: Topical Application
- Recommended Course: 4-6 Sessions
- Interval: Every 1-2 weeks during the initial phase
- Maintenance: Every 2-3 months according to skin condition
- Dosage: 4-5 mL Per session (Full Face Application or Targeted Areas)
